

WS1 - Probes Accessories

Description	External Probes &	UbiBot Cloud IoT Platform	Specifications	Downloads and Documents	FAQs
-------------	------------------------------	---------------------------	----------------	-------------------------	------

- UbiBot WS1 supports 1 x DS18B20 Temperature Probe.
- With a Micro-USB Cable Splitter, WS1 can connect 1 x DS18B20 Temperature Probe and external power supply at the same time.
- If the UbiBot device is used in continuously high humidity (over 90% RH), we suggest using the UbiBot water-resistant case and connecting DS18B20 external probes.

External Probes

DS18B20 Temperature Probe
